TurfHound®
DYNAMIC PERFORMANCE

vs. **Generic Roll of Carpet**
STATIC SURFACE

Durability	Durability
<ul style="list-style-type: none"> • Panel system design provides maximum flexibility to rotate each panel to extend product life • Panel system allows for purchase of replacement panels to extend product life and provide greater ROI 	<ul style="list-style-type: none"> • Roll of carpet material is static, therefore it doesn't react • You can't rotate any portions of the surface area • With a continuous tee line, you can only replace entire unit when worn
Performance	Performance
<ul style="list-style-type: none"> • Panel system is "dynamic" with patented dual-density foam, which provides the most realistic strike of the golf ball 	<ul style="list-style-type: none"> • Roll of carpet is static and doesn't provide any level of cushioning
Tee System	Tee System
<ul style="list-style-type: none"> • Panel system features proprietary tee slots which come from underneath and allow for all golfers to use any length tees. Note: Tee slots can be replaced 	<ul style="list-style-type: none"> • Roll of carpet allows golfers to place tee anywhere in the surface. However, after 1-2 years, surface becomes hard and compacts and will no longer support a tee. Becomes iron-only tee surface until replacement
Comfort	Comfort
<ul style="list-style-type: none"> • Panel system has patented dual-density foam cushioning, allowing for 24/7 use with no pain 	<ul style="list-style-type: none"> • Roll of carpet is static and it compacts over time, which makes it hard and painful to hit off
Appearance	Appearance
<ul style="list-style-type: none"> • Sleek design featuring two types of turf: fairway and first cut of rough, which creates a very attractive presentation 	<ul style="list-style-type: none"> • Only provides fairway-height carpet
